ANALYTICS PROJECTS

SUPPLY CHAIN AND INVENTORY INEFFICIENCY ANALYSIS – Click here to see Dashboard

Used **Power BI** to create a dynamic dashboard that visualizes the inefficiencies of warehouse and supply chain to help stakeholders make informed decisions on how to solve the business challenges.

BIKESTORE REVENUE DASHBOARD – Click here for full project details

Used **SQL Server** to design database and modelling, and queried revenue information from the database.
Transformed and processed data by using **Power Query Editor and DAX** and built the dashboard with **Power BI**.

SALES ANALYSIS PERFORMANCE DASHBOARD – Click here to see Dashboard

Created a dashboard with **Microsoft EXCEL** to help client track performance of about 10,000 sales records.
Transformed and processed data by using **EXCEL** to ensure data completeness and validity.

EXPERIENCES:
